NH HEALTH ACCESS NETWORK

How does it help?

The NH Health Access Network helps low-income residents of New Hampshire who have health insurance but need financial assistance to help cover out of pocket medical expenses such as deductibles, co-pays and co-insurance.

How does it work?

The NH Health Access Network helps you find the financial assistance program that best suits your needs and assists with the application process so that you can get the health care that you and your family needs.

How can I find out if I'm eligible?

The NHHAN Application can be found online at www.healthynh.com or ask your healthcare provider. Once completed, mail the application and required documents to the Financial Assistance Department at your local hospital, or the hospital that your primary care provider is affiliated with, and they will process. *To be eligible, you must have health insurance that's accepted by a NH Health Access Network Provider and/or Hospital who are also in your insurance carrier's network, prior to filing out an application.*

What happens next?

Once approved, you will receive a NHHAN card from the hospital that processed your application, that can be used at a NHHAN site that accepts your insurance. For a list of participating NHHAN sites, visit the NH Health Access Network at www.healthynh.com.
